Press Release

Red Dog Logistics Inc Acquires California Delivery Service

The Dog Keeps on Running.

Chicago, January 7, 2022: Red Dog Logistics Inc, a leading freight logistics company based out of Chicago, has today announced they have entered into a definitive agreement with California Delivery Service, a freight forwarding and trucking company based out of Fontana, California.

California Delivery Service provides local, regional and specialty delivery services for California and surrounding areas. Serving the building, beer, food, and beverage industries, California Delivery Service is a leader in end-to-end, supply-chain management with active operators across the southwest United States. California Delivery Service's focus on quality people and quality deliveries is what sets them apart from the competition.

California Delivery Services' purchase marks a promising next step for Red Dog Logistics Inc. that was founded in 2012 by CEO, John Rediehs. Since its founding Red Dog has grown from a \$0 company to an over \$38 million company today in 2022. For Red Dog, this purchase represents an opportunity to expand and start serving new markets. California Delivery Service expects to benefit from Red Dog's industry experience and proprietary technologies.

"I was very excited when I learned about California Delivery Service" said CEO, John Rediehs, "Red Dog has been looking to double down on our growth initiatives on the West Coast and acquiring CDS aligned with that goal. Our commitment to our clients is strong and we're looking forward to working with CDS to continue giving excellent service to our current clients as well as to our new ones on the West Coast."

Headquartered in Chicago, IL, Red Dog Logistics Inc. is one of the nation's leading logistics firms specializing in full-service logistics and proprietary technologies.

About Red Dog

Headquartered in Chicago, Red Dog has enjoyed growth and success offering technology backed pricing, deep understanding of freight market trends, & proprietary software
